

## Manuscript content verification

Article title:

MULTI-ROBOT MOTION PLANNING: A MODIFIED RECEDING  
HORIZON APPROACH FOR REACHING GOAL STATES

Author/s:

José Magno MENDES FILHO,  
Eric Lucet

1. The undersigned authors warrant that the work is original and that it contains no content that is illegal or offends on any proprietary right or any copyright.
2. The undersigned authors warrant that they contributed significantly to the content and preparation of this work, and that they have seen and approve the content, authorship, order of author representation, and listing of references.
3. All authors agree that this work has not currently been sent for publication elsewhere and if it is accepted in Acta Polytechnica, it will not be submitted elsewhere.
4. All authors agree that the content of this work has not been published in any article or in any ISBN identified book.
5. All authors confirm that all commercial interests, patent-licensing etc. that could be a subject of financial conflict related to the submitted article have been disclosed.
6. The authors have the non-exclusive right to do anything with their work but with the obligation to cite the original publication.
7. The authors grant the CTU in Prague a license to publish, reproduce, distribute, display and store this work in all forms.
8. All authors confirm that DOI identifier for all cited references have been included where available.
9. In cases where a manuscript is not accepted, this agreement shall be void.
